ANNUAL REPORT

OF THE

STATE AUDITOR

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1891.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, January 1st, 1892.

To His Excellency THOMAS M. HOLT,
Governor of North Carolina.

SIR:—In compliance with the law, I have the honor to transmit herewith the annual report of this Department for the fiscal year ending November 30, 1891, together with tabulated statements concerning matters coming within the purview of this Department.

The balance in the hands of the State Treasurer, after accounting for outstanding warrants and accounts remaining uncollected at the close of the year, is shown by the General Statement on page 12, to be, of the General Fund, $151,138.67; and of the Education Fund $10,601.03, against $137,352.31, and $26,334.30, respectively, for the previous year.

The disbursement of the Education Fund was principally for the purchase of North Carolina bonds by the State Board of Education as an investment of said fund.

The Receipts and Disbursements of the Public Fund, as shown by Statement G, seem excessive, but by reference to notes accompanying Statements H and I it will be seen that they are not above the average.

Statement J has been enlarged, and now not only embraces the subjects of taxation and the amount of the tax, but also the number and value of the different subjects of taxation as listed by individual taxpayers in the counties.

Statement O gives interesting information as to railroads and canals in the State, giving the valuation in detail and the amount of State taxes paid by each. The statement shows a wonderful increase in the taxable value of railroads over previous years, which is due both to the increase of mileage and the very efficient work done by the Railroad Commission. In my next annual report I shall have a recommendation to make in regard to the taxation of railroad property outside of the right-of-way.

The other tabulated statements accompanying this report you will find complete in every detail, but deserve no special notice from me, except the addenda on page 248. From the table may be ascertained some very new and very important information relative to the last assessment of the property throughout the State, the regular quadrennial assessment occurring in 1891, as of June 1 of that year.

This statement is of special interest—

1. Because the aggregate amount of property listed by white and colored citizens is for the first time reported separately.

2. The amount of bank stock listed in each county is reported.

3. The amount of railroad property in each county is shown, and,

4. The aggregate of all these separate properties, not heretofore anywhere completely tabulated, gives the true total valuation in each county of all property in that county, and thus and only thus the true aggregate value of all property listed for taxation in the State, which is

$262,796,816, that being $52,761,363 more than was reported under the assessment of 1887; but in this amount is included railroad property and bank stock amounting to $20,669,802, which, being deducted, will show a net increase in the taxable value of property over the assessment of 1887 amounting to $32,091,561.

PENSIONS.

The Legislature at its last session passed certain amendments to the Pension Act of 1889, the most notable of which is one striking out the word "indigent" before "widows" in section 1 of the Act, thus making the property disqualification the same for both soldiers and widows, and resulting in a marked increase of widows on the pension roll; and another amendment of importance is that which requires that "the Auditor of the State shall establish in each county a Board, to be known as 'the County Advisory Board of Pensions,' which Board shall consist of the Executive Committee of the County Confederate Veterans' Association, established under Act of the General Assembly, chapter 97, Private Laws of 1889, where such Association exists, or where such Association does not exist, then the said Board shall be composed of five ex-Confederate soldiers who were actively engaged in the late war between the States."

The duties of the said County Advisory Board are prescribed and defined in the section creating it, as follows: "To this Advisory Board of Pensions the County Board shall refer all applications for pensions immediately upon their presentation, and the said County Advisory Board shall proceed at once to inquire into the justness of each claim and be prepared to furnish all necessary information to the County Board of Pensions at its meeting one month succeeding the date at which the applications were first

presented before the said County Board for consideration." It is hoped that such a Board, constituted in each county of old soldiers who saw active service in the war between the States, will do effective work in protecting the pension fund from unworthy applicants, and at the same time securing its benefits to all who are really worthy and entitled to the same.

There was an increase in the pension roll, as between 1890 and 1891, as indicated by the following comparative statement of the number of pensioners composing each class for each year respectively, to-wit: First class in 1890, 46; in 1891, 51. Second class in 1890, 231; in 1891, 249. Third class in 1890, 339; in 1891, 357. Fourth class (soldiers), in 1890, 915; in 1891, 1,130. Fourth class (widows), in 1890, 2,523; in 1891, 2,798. Showing net increase for 1891, soldiers, 258; widows, 431. Total number on roll for 1891, soldiers, 1,787; widows, 2,798. Soldiers and widows, 4,585. The Pension Act requires that where the pension fund is not sufficient to pay in full the sum provided for each pensioner under the classifications established in section 1 of the Act, then the said fund shall be distributed *pro rata* according to said classifications. Under the provision of the Pension Law, just referred to, the amount received by the pensioners of the prescribed classes for the years 1890 and 1891 respectively was as follows: First class, 1890, $71; 1891, $60. Second class, 1890, $53.25; 1891, $45. Third class, 1890, $35.50; 1891, $30. Fourth class, 1890, $17.75; 1891, $15.

The diminished amounts distributed among the respective classes of pensioners for 1891 will, of course, be understood as resulting from the increase of pensioners in each class on the pension roll, and a diminished fund for distribution, the fund being less by about four thousand dollars for 1891 than for 1890. Large additions have been made to the taxable property in the State, and so we may

hope that the sum distributed *pro rata* this year will be in excess of last year, and, it is to be hoped, in excess also of any previous year. There are certain matters in connection with the Pension Law and its operations which I shall wish to present through your Excellency for the consideration of the Legislature which meets next January, but I think it well to reserve them for my next report, to be issued at that time.

I have the honor to be,
With very great respect,
Your obedient servant,

G. W. SANDERLIN,
State Auditor.
